

January 4, 2008

The Universal Energy Foundation
Joan Chien
318 Moffett Blvd.
Mountain View, CA 94043

Dear Ms. Chien:

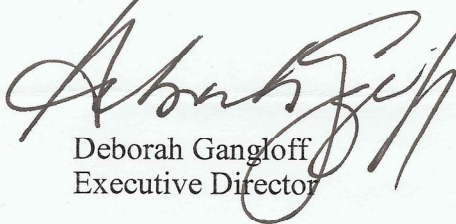

Thank you so much for your contribution of \$20,000.00 on 12/31/2007 to our Global ReLeaf Campaign. We are grateful to have generous friends like you, whose gifts allow AMERICAN FORESTS to restore our country's forests to more healthy, sustainable conditions.

Your gift will plant trees in a forest ecosystem that has been damaged or destroyed by natural causes or human abuses.

With our Global ReLeaf campaign, AMERICAN FORESTS and many of its partners are setting goals to improve the environment throughout the country. Our effectiveness will be measured by how well we succeed in involving individuals, business, and organizations in reaching these goals.

Again, thank you for your support. I hope that you will encourage your friends and associates to consider AMERICAN FORESTS when making a contribution to improve the environment.

Sincerely,

Deborah Gangloff
Executive Director

*Thank you so much for
planting 20,000 trees!
Best wishes for the
New Year —*

For IRS purposes, this letter acknowledges that no goods or services were received in exchange for this gift. I can assure you, however, that thousands of Americans, both young and old, will benefit from your generosity.

Dear Ms. Chien:

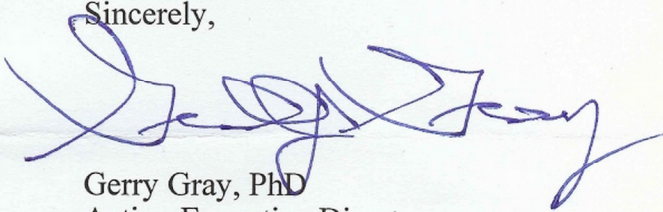

Thank you so much for your contribution of \$5000.00 on April 2nd to our Global ReLeaf Campaign. We are grateful to have generous friends like you, whose gifts allow AMERICAN FORESTS to restore our country's forests to more healthy, sustainable conditions.

Your gift will plant trees in a forest ecosystem that has been damaged or destroyed by natural causes or human abuses.

With our Global ReLeaf campaign, AMERICAN FORESTS and many of its partners are setting goals to improve the environment throughout the country. Our effectiveness will be measured by how well we succeed in involving individuals, business, and organizations in reaching these goals.

Again, thank you for your support. I hope that you will encourage your friends and associates to consider AMERICAN FORESTS when making a contribution to improve the environment.

Sincerely,

Gerry Gray, PhD
Acting Executive Director
